

# clubMINDER<sup>®</sup>.net Membership and Contact Management

ClubMinder.net stores data on anyone involved with the Club and helps you produce lists, create mail or email shots, print labels, or analyse data. It manages the data for all other systems at the Club, saves time and helps attract and retain members. And, it's great for raising subscriptions.

Use it to reduce your Club's carbon footprint and save money.

Martyn Senior, Secretary of Hesketh Golf Club says *"ClubMinder was installed at Hesketh Golf Club in 1997 and is a proven till system which accounts for all our bar sales, social tickets, catering and anything else you wish to sell. It integrates with membership systems and we changed in 2008 to ClubMinder.net for our membership and subscription management. ClubMinder.net is a very advanced administration system which gives you very powerful tools to extract data and administer subscriptions. We have been very happy with our association with Jonas ClubMinder over many years keeping us at the forefront of technology."*
